Do you want to reduce costs and save money?

Claims Processing

Charge Auditing

Training

Hearing Representation

Budgeting/Reporting

Here is the best way to achieve your goals!

School districts in Connecticut are experiencing higher unemployment costs than ever before. With our **Unemployment Cost Management Service**, you will reduce your costs and save your staff time and aggravation.

With our partner at **Corporate Cost Control**, here are the services they can provide you to reduce costs and save staff time.

Power of Attorney/ Address of Record

Preparing and submitting all the state documents – you just need to sign them and send them back to us for processing.

Electronic Data Retrieval

Offer a host of flexible and secure options to electronically gather your separation wage and location information.

Claims Processing

An experienced, well trained claims consultant will be assigned to handle all your claims. Their mission will be to win every claim at the initial claim stage by providing the detailed information the state requires.

Appeals Review and Processing

A thorough review of each determination will be conducted by an appeals coordinator assigned to your account. This person will have many years of unemployment compensation experience and will be supervised by our on-

staff legal counsel. Carefully-crafted appeals will be sent on all cases requiring a protest.

Hearings Preparation, Consultation and Attendance

The same appeals coordinator will also prepare your management team for all hearings. By handing the case from the outset, you can be assured your team is getting timely consistent and thorough preparation on each case. We also can provide expert representation at any hearing, whether it's a telephone hearing or a live hearing, anywhere in the United States.

Benefit Charge Auditing

Our sophisticated charge auditing system will automatically check for a multitude of common state errors. We will file protests on any erroneous charges and track them until a credit is received.

Unemployment Tax Management and Consulting

A unemployment compensation tax analyst will be assigned to your account to provide proactive and thorough tax analysis, including rate verifications, joint account analysis and voluntary contribution recommendations. In addition, our tax team is available to assist in any unemployment compensation tax-related project such as impact analysis, rate projection or an acquisition or merger. Our staff can also do a complex tax audit going back up to 3 years to re-cover overpayments.

Customized Management Reports

Customizing our reports to your specifications allows the report to be user friendly to you and your staff, making it a valuable tool in helping reduce your unemployment costs.

Web-Based Reporting

This flexible and secure system allows your corporate and field management the freedom to review your unemployment experience 24/7 from any computer. Each user is given a unique log-in, password and set-up to see only the reports you designate them to see.

Quarterly Account Review

The Corporate Cost Control Account Executive assigned to your account will meet with you each quarter to review your unemployment experience. This experienced consultant will provide you with in-depth analysis and concrete solutions that will help reduce your costs.

Training and Education

We offer training via webcast or in-person to address any aspect of unemployment cost control. We tailor our presentation, utilizing your actual unemployment cases and incorporating how your specific policies and procedures are impacting your ability to win cases. We can also provide you with training and educational content for you to utilize in your own company for training programs or modules.
