

Connecticut Association of Boards of Education

Education Funding

Issue Profile
February 2018

Reductions in state support and local fiscal constraints have resulted in significant budget cuts to education, impacting programs and services.

CABE supports:

- ✓ Developing and funding a comprehensive education funding formula that is fair, equitable and predictable to include appropriate support for special education, English Learners and children living in poverty.
- ✓ Avoiding the transfer of state obligations to local property taxpayers.
- ✓ Maintaining the Minimum Budget Requirement to meet student needs.
