School Governance Position Statement Spring 2016

“The school leadership team – school board and superintendent – is critical to the success of public education. Great things can happen when the elected and executive leadership of a school system are in agreement about goals and expectations. That requires candor and collaboration, and a shared commitment to the mission of ensuring that all children have access to a great education.”

Thomas Gentzel, Executive Director, National School Board Association, and Daniel Domenech, Executive Director, American Association of School Administrators, 2014

Preface:

Connecticut's educational leaders recognize the power and potential to improve teaching, learning and student achievement in our public schools through cooperative, purposeful and professional working relationships between Superintendents and Boards of Education. The functions of our publicly elected Boards and hired Superintendents are subject to shifting demographic, cultural, and regulatory pressures. Meanwhile, in this continually evolving context, robust working relationships between school Boards and Superintendents, based on proven practices, consistently prove to be key drivers of high-achieving school districts.

This document is CABE and CAPSS view on the nature of and expectations for working relationships between Boards of Education and Superintendents. We intend it as a statewide reference for both groups to work toward strengthening strategic partnerships that empower student achievement. Our attempt is to capture best practices in this area, understanding that many of the issues addressed must be determined at the local level. We recognize that Superintendent/Board relationships vary, reflecting the diversity of our cities and towns.

We hope that this reference will continue to facilitate ongoing statewide discussions among and between Boards of Education and Superintendents for the districts that serve our students.

School Governance Position Statement Spring 2016

For success, the Board of Education and the Superintendent of Schools in any school district must share the same goals and vision for providing students with quality education. While Board and Superintendent roles are different, they should complement each other. For the greatest success, Board members and the Superintendent must work collaboratively as a governance team, with each clear on their roles and areas of responsibility, respecting the others' roles and responsibilities and collaborating effectively on shared responsibilities.

Our stance aligns with the AASA-NSBA foundational position: In general, “the Board is a legislative body that develops, evaluates and oversees education policies. The Superintendent is the professional educator chosen by the Board to implement policies and to provide professional leadership (and vision) for a district’s schools.”

School districts with high-quality governance teams and high student achievement are characterized by excellent working relationships between the Superintendent and Boards of Education. **The focus of the relationship must always be collaboration on behalf of children.**

Governance Statement: Uses for This Document

This Governance Statement is intended to be used as a tool for discussion between boards and superintendents. It takes into account the thoughts of board members, former and current superintendents and others versed in leadership. It is not designed as a one-size-fits-all recipe. Rather, it is based on what the authors see as the best road to take to build that strong relationship.

We recommend that all boards and their superintendents discuss their expectations for each other as soon as any of the members of the Leadership Team (the Board of Education and the Superintendent) change. Thus, with changes due to board elections, appointment of a new board member, the hiring of a new superintendent or whenever the board and superintendent believe it is in the interests of their relationship to have a discussion of expectations, the Team should take part in a retreat. The Governance Statement can serve as a good starting place for those discussions.

These discussions should occur in a retreat format, usually with a trusted facilitator. While certainly the companion Board Self-Assessment contained in the Team Assessment document should be used to pinpoint the views of both board members and the superintendent, the Governance Statement itself, with its list of board responsibilities, superintendent responsibilities and those they share, should be well-known to new and experienced board members and superintendents.

Every district has different board members, a different superintendent, different demographics, and other unique characteristics that will help inform such a retreat. That is to be expected and is actually a strength of Leadership Teams: local control is based on an understanding that different localities have different needs and wants.

Because of that, we encourage your Leadership Team to discuss the responsibilities and determine how best you can work together to ensure they are carried out in a thoughtful, positive way, all aimed at strengthening your student achievement. At times when difficult, contentious issues come before the Board, it can be helpful to return to the Governance Statement and have another discussion of expectations.

Joint Board/Superintendent Responsibilities

The primary responsibility of a Board and Superintendent is to foster a district culture that makes student achievement its primary focus. These are specific joint responsibilities that will accomplish this goal.

- To work together with the community to develop a vision for the school district with a primary focus on student achievement.
- To develop goals that align with the vision for the district and foster continuous improvement.
- To institute a process for long-range and strategic planning that aligns with the vision for the district.
- To communicate and interpret the school district's mission to the public and listen, and incorporate appropriate community perspectives into Board action.
- To provide community leadership on educational issues by creating strong linkages with appropriate organizations, agencies and other groups to provide support for healthy development and high achievement for all children.
- To participate in professional development specifically regarding their roles and responsibilities and on relevant content areas.
- To support Board actions and decisions.
- To collectively execute their legal responsibilities.
- To set aside time, at least semi-annually, to discuss school Board/Superintendent relations.
- To belong to, actively support, and participate in their professional organizations, and encourage each other to do so.
- To ensure that professional development opportunities, consistent with district goals, are available to all Board members and school district employees.
- To ensure district adherence to federal and state laws and Board policies.
- To advocate, at the national and state levels, for students and the school district and promote the benefits of public education.
- To collaborate with other school Boards, Superintendents, agencies, and other bodies to inform state and federal policy makers of local concerns and issues relative to education.
- To work collaboratively with agencies, and other bodies, as appropriate, on an ongoing basis.

For more information on the specific duties of the Superintendent, it is recommended that the Board and Superintendent examine the Connecticut Superintendent Leadership Competency Framework, developed by LEAD Connecticut. It is intended to focus specifically on effective superintendent leadership and is included at the end of this document.

The Relationship between the Board Chair and the Superintendent

By the nature of the position, the Board Chair plays a key role in ensuring the effective functioning of the governance team. The Chair serves as the liaison between the Board and the Superintendent. The Board Chair will often have a very different relationship with the Superintendent of Schools than others on the Board. Because of this relationship, it is crucial that Board Chairs be chosen carefully. Ability to serve as representative of the Board and, as appropriate, partner with the Superintendent, should be critical considerations in selecting the Board Chair.

The Chair should also recognize that his or her role is dependent upon the support of the Board, and that action generally requires the vote of the Board.

Usually the Chair and Superintendent collaborate on developing the meeting agenda and other operational issues facing the Board. (Sometimes Board officers do this with the Superintendent.) The Superintendent will depend on the Chair for guidance, and the Chair should look to the Superintendent for the same, not only in setting the agenda, but also in carrying out other joint Board/Superintendent responsibilities. Both the Board Chair and the Superintendent should develop and maintain a close, positive working relationship.

The Superintendent is a non-voting member of the district leadership team, and should be accorded the proper respect. The Board and the Superintendent work together to ensure that they make all decisions consistent with the ethical standards they’ve established.

School Governance Position Statement 2016

The Chair has the unique role of communication with all Board members and provides appropriate information on any issues that arise in the district. The Superintendent also has a role in seeing that the Chair gets any help or information they need to make sure this communication takes place.

The Chair has a responsibility to ensure that the Superintendent can do his/her job without undue outside interference. The Chair must also ensure that individual Board members understand their roles and responsibilities, not only in terms of the Board/Superintendent relationship, but also as the Board relates to the students, community, staff, government agencies, and others affected by the Board. Understanding that Board members are individuals, with different opinions and agendas, the Board Chair still has the responsibility, to the extent possible, for keeping everyone “on the same page.” In particular, the Chair must make every effort to ensure that once district policy has been properly established, the Board speaks “in one voice” as the Superintendent implements that policy. This will, in the long run, pay dividends in terms of credibility of the Board and will lead to more efficient and effective Board action.

For more information on the work of the Board Chair, please see the CAFE publication, “Who’s In Charge? A Guide for Board of Education Chairs”.

Conclusion

While this position paper attempts to outline the various roles and responsibilities of Boards of Education and School Superintendents, its primary purpose is to emphasize the importance and necessity of a close working relationship between the two, based on trust, an understanding of each other’s unique roles and abilities, and a shared vision for the school district’s success. Not only is such a relationship a necessary prerequisite for this success, but also, the lack of a trusting, collaborative relationship between a Board of Education and its Superintendent is a blueprint for failure.

The focus for Boards and Superintendents must always be: How can we work together to ensure educational excellence for our children?

Superintendent's Leadership Performance Areas and Specific Areas of Responsibility

Successful Superintendents of Schools are visionary CEOs who lead dynamic enterprises in a shifting climate of policy, politics, society, economics, and law. Balancing and managing national reform and accountability initiatives against local circumstances, they create the conditions that drive their school district's leadership, quality of instruction, and student achievement. Research has shown that the nation's most successful Superintendents possess highly developed leadership, vision, and strategic thinking skills, and that these skills, combined, influence student achievement.

Together, CABE and CAPSS have created the following framework to help guide Superintendent evaluation and development. CABE/CAPSS regularly revises this document to reflect continuing developments that shape Superintendents' areas of responsibility.

I. Educational Leadership

Grounded in relationships, the Superintendent enlists and guides school district stakeholders toward the district's educational goals, demonstrating an intense focus on continuous district improvement.

Working with the Board of Education, community, and staff, the Superintendent:

- develops and implements a vision that inspires action and commitment;
- develops and implements a district leadership plan that guides decision making;
- aligns resources to drive a district-wide strategy for improving the performance of all students;
- establishes systems that build staff capacity and hold staff accountable for results;
- establishes and sustains a culture of continuous improvement and accountability;
- purposely aligns systems and structures that support the strategic operating plan;
- identifies the values and ethics under which the schools function.

Serving as the Board of Education's educational leader and chief executive, the Superintendent:

- works with the Board of Education, staff and community to facilitate the development and implementation of a vision of learning that sets high performance expectations for all students and staff;
- promotes a positive school culture in which there is an effective instructional program and a comprehensive professional development plan for staff;
- belongs to, actively supports, and participates in professional organizations (e.g., CAPSS, AASA) and encourages the Board of Education to actively support and participate in their professional organizations (CABE, NSBA);
- uses knowledge of research-based best practices related to learning, teaching, student development, organizational development, and data management to optimize learning for all students.

Superintendent's Leadership Performance Areas and Specific Areas of Responsibility

II. Organizational Management

Effective facilitation of the day-to-day operations of the school district and its programs requires leadership in organizational management. This includes establishing systems and appropriate delegation of tasks for:

- consistent with Board of Education policy, recruiting, hiring, and retaining personnel for the school district who show potential to best meet the needs of all students;
- providing a system of support, supervision, and consistent evaluation to ensure effectiveness of certified and classified staff;
- preparing, advocating for, and implementing an annual budget that addresses district goals and meets the needs of all students;
- implementing policies adopted by the Board of Education and recommending appropriate changes; and informing the Board of administrative procedures necessary to implement Board policies;
- ensuring the health and safety of students and staff;
- reporting regularly to the Board of Education on all relevant matters.

III. Community and Board of Education Relations

Community and Board of Education relations are critical to the success of the Superintendent and the school system.

Community relations: The Superintendent works in partnership with the Board of Education and the community to:

- establish a vision, goals, and objectives for the district;
- communicate regularly and clearly with the community;
- provide data and information to assist with the evaluation of the district operations and programs;
- represent the district to the community;
- maintain positive working relationships with key local, regional, and state organizations and agencies.

Board relations:

Working in a professional manner, the Superintendent:

- provides professional advice and keeps the Board of Education informed and updated on educational issues and the school system's needs and operations, by providing appropriate recommendations and supporting data.
- responds to communications from staff and community, as appropriate; ensures the adherence and appropriate response through the chain of command; and keeps Board of Education members informed about significant operational issues in a timely manner.

Superintendent's Leadership Performance Areas and Specific Areas of Responsibility

IV. Staff Relations

No chief executive officer, including a superintendent of schools, can lead a successful organization without establishing healthy and productive relationships with the organization's staff members. To establish such relationships, a superintendent must ensure that systems are in place that:

- provide for a safe and orderly work environment for all staff;
- delegate authority appropriately to all staff members;
- give all staff members sufficient authority and support to meet their responsibilities;
- provide all staff members with effective, relevant, and ongoing professional development aligned with their responsibilities and opportunities for advancement;
- provide all staff members the information they need to meet their responsibilities;
- provide for substantial consideration of input from staff members on all important policy and procedural decisions that involve them;
- provide for regular and systemic communication to all staff members with respect to all major organizational goals, objectives, and management issues.

V. Personal and Professional Qualities and Relationships

Personal and professional qualities and relationships are critical to the effectiveness of leaders and managers. The Superintendent, with poise and diplomacy, must:

- maintain high standards of ethics, honesty, and integrity in all professional matters;
- continue to refine and develop their skills and contemporary knowledge;
- make decisions based on sound professional practice;
- interact effectively with individuals and groups both within and outside the school district to accomplish the goals of the district;
- strongly advocate for public education and support their convictions;
- maintain a healthy balance between professional obligations and personal life.

VI. Growth in Student Achievement

Every school district's core mission is to prepare all students for the future by ensuring their growth in achievement. The Superintendent does not deliver instruction directly to students but must set expectations and take specific actions that establish a culture conducive to growth in student achievement.

The Superintendent must establish systems for:

- involving stakeholders throughout the system to establish instructional and achievement goals;

Superintendent's Leadership Performance Areas and Specific Areas of Responsibility

- collecting data on a regular basis regarding student achievement in all programmatic areas;
- analyzing data to identify areas of instruction requiring focus and emphasis;
- developing and implementing plans to ensure growth in student achievement and for revising those plans regularly, in accordance with relevant student achievement data;
- holding staff accountable for implementing plans to enhance student achievement and for the intended growth in student achievement;
- determining whether achievement growth strategies are successful and methods to conduct relevant assessments;
- setting, in concert with the Board of Education, assessable school system goals for yearly performance in student achievement and methods for conducting the relevant assessments;
- setting, in concert with the Board of Education, reasonable and assessable goals for their performance -- within the context of available resources and Board support -- for the Superintendent's proposals.
